

Amendments to the Specification

Please replace the second full paragraph on page 5 with the following amended paragraph:

--A travel direction device of the present invention is characterized in that the notification of the direction is given a predetermined number of times during a predetermined period of times. Accordingly, the user can set output of the voice direction to be given once in three ~~times~~ weeks or once in four ~~times~~ weeks, for example, and thus, the user does not get annoyed by it.--
